

# Learning Path - WMC5

---

Create a WMC repository for your exercises. Name it "WMC5-2425-YourLastnameYourFirstName". To keep track of your work, copy this file (LearningPath.md) into your repo and record your progress in the tables below. Document your progress by creating summaries and programming the examples. Push this documentation to your GitHub repo to verify the work you've completed.

1. Finish either the JavaScript Course on Codecademy or the one from freeCodeCamp

Task	Duration	Progress (time or %)	Completed
<a href="#">Codecademy - Introdcution to javaScript</a>	15h	100%	yes
<a href="#">freeCodeCamp - Learn JavaScript - Full Course for Beginners</a>	3h 27 min	100 %	yes

2. HTTP Networking - Work through the following topics

Task	Duration	Progress (time or %)	Completed
<a href="#">Article: What is HTTP</a>	1h	100%	yes
<a href="#">Full HTTP Networking Course – Fetch and REST APIs in JavaScript</a>	5h 9min	100%	yes

3. Watch the following videos about basic JavaScript techniques for web development

Task	Duration	Progress (time or %)	Completed
<a href="#">Javascript Nuggets - Callback Functions</a>	13min	0 % or "h min"	yes/no
<a href="#">Javascript Nuggets - Callback Hell</a>	7min	0 % or "h min"	yes/no
<a href="#">Javascript Nuggets - Promises</a>	13min	0 % or "h min"	yes/no
<a href="#">Javascript Nuggets - Promises Example</a>	13min	0 % or "h min"	yes/no
<a href="#">Javascript Nuggets - Async / Await</a>	17min	0 % or "h min"	yes/no

4. Work through the following video about Node.js and Express

Task	Duration	Progress (time or %)	Completed
<a href="#">Node.js and Express.js - Full Course</a>	8h 17min	0 % or "h min"	yes/no
