

Learning Path - WMC5

Create a WMC repository for your exercises. Name it "WMC5-2425-YourLastnameYourFirstName". To keep track of your work, copy this file (LearningPath.md) into your repo and record your progress in the tables below. Document your progress by creating summaries and programming the examples. Push this documentation to your GitHub repo to verify the work you've completed.

1. Finish either the JavaScript Course on Codecademy or the one from freeCodeCamp

Task	Duration	Progress (time or %)	Completed
Codecademy - Introdcution to javaScript	15h	100%	yes
freeCodeCamp - Learn JavaScript - Full Course for Beginners	3h 27 min	0 %	no

2. HTTP Networking - Work through the following topics

Task	Duration	Progress (time or %)	Completed
Article: What is HTTP	1h	0 % or "h min"	yes/no
Full HTTP Networking Course – Fetch and REST APIs in JavaScript	5h 9min	0 % or "h min"	yes/no

3. Watch the following videos about basic JavaScript techniques for web development

Task	Duration	Progress (time or %)	Completed
Javascript Nuggets - Callback Functions	13min	0 % or "h min"	yes/no
Javascript Nuggets - Callback Hell	7min	0 % or "h min"	yes/no
Javascript Nuggets - Promises	13min	0 % or "h min"	yes/no
Javascript Nuggets - Promises Example	13min	0 % or "h min"	yes/no
Javascript Nuggets - Async / Await	17min	0 % or "h min"	yes/no

4. Work through the following video about Node.js and Express

Task	Duration	Progress (time or %)	Completed
Node.js and Express.js - Full Course	8h 17min	0 % or "h min"	yes/no
